

The Masterworks Collection

Inspired by ancient restoration; utilizing custom gilding, printing and papermaking techniques, Weitzner takes gilded wallpaper beyond the familiar leafed sheets into an entirely new realm. Inspired by the intricately gilded backgrounds on ancient old-European frames, Lori has collaborated with artisan Rebecca Thompson, who studied fine art and conservation in Italy. Thompson's expertise fueled the pair's "re-purposing" of old world techniques that, to their knowledge, have never been applied to the production of wallcoverings.

Weitzner's mission is to touch people on an emotional level by creating products that blend beauty, innovation, environmental consciousness and performance.

Weitzner is an entirely fresh take on furnishings for the wall, from the studio of Lori Weitzner. Weitzner is esteemed for the lyricism of her surface designs as well as her expertise with the tactile; the wallcoverings celebrate both. Presented here are sumptuous materials in unexpected contexts, handcrafted effects married with innovative weaving technologies. Beautiful, artistically ground-breaking, and appropriate for residential, commercial and hospitality applications.
